No more screws!

A proven solution now available on a smaller, less expensive platform

The omega OM-2 is part of the evolution of Christmas tree stands which takes the proven engineering of one of the most successful and effective stands to a new, smaller, less expensive design.

Why choose the omega OM-2?

- unique clamping system replaces traditional screws of other stands
- stackable
- stable with a span of 20 inches (51 cm)
- holds 2 litres of water (2.1 U.S. quarts)
- accommodates trees up to 7 feet tall (213 cm)
- Patented & made in Canada
